

JUMPSTART AND THE KNOT WED

JUMPSTART, the Austin, TX variety dance band and The Knot.com, a one-stop planning and shopping resource for brides to be, teamed up in the spring of 2009. "This is a good marriage" said Mike "Style" from JUMPSTART, because we [the band] specialize in weddings and corporate events. According to Mike, a majority of JUMPSTART performances are for weddings. In fact, much like the Knot.com, weddings are an area of focused expertise for JUMPSTART. Why?? Simply, JUMPSTART enhances each wedding by customizing their set lists to please every one of the guests, i.e. from grandma and grandpa to the most discriminating musical perspective. JUMPSTART brings a whole package to a performance, that is, live musicians that play real instruments (instead of prerecorded sequences like some other bands), as well as a DJ to keep the entertainment going before, during and/or after the performance. JUMPSTART adapts their dance sets to mesh with the reception schedule and their DJ can keep the party going while the band is on break with more dance tracks! If you are planning a party, a holiday party, or planning on getting married in the next few months, check out JUMPSTART and the Knot.com. And if you want dance music that ranges from the 30's to yesterday, Cajun to Tejano, rock to Motown, funk to salsa, and disco to jazz, they are the band for your event! You can visit JUMPSTART at www.jumpstartmusic.com or you can access their website via www.theknot.com or the Wedding Channel. Either way, you'll be glad you did.
